Please note that tuition and fees are subject to increase annually and that students will be charged in subsequent years at the rates that are in effect for those years. While the Seminary will make every effort to keep tuition and fees affordable, students should plan on a 5% annual increase in the cost of their education.

* These fees apply to select courses that are open each year for Continuing Education for alumni and others, and for members of Partner Churches. Not all courses are open for this option. See the Registrar for more information.
